

Informed consent on TCA peeling

The nature, purpose and expected results of the proposed treatment have been discussed with me. I have been informed that, before and after the treatment, I must observe certain directives in order to obtain the best possible result. I have also taken note of the written information material provided to me by the Statenkliniek.

I understand that there is a possibility that the peeling may not produce sufficient results.

I understand that no guarantees can be given about the result of the treatment.

I have informed the Statenkliniek of the medicines I am currently taking and of any relevant information such as pregnancy and lactation period, diseases, pacemaker, prostheses, implants and other foreign matter.

I have also reported the hypersensitivity reactions to medicines or other substances known to me.

I am well informed about alternative therapies and I realize that in some cases multiple treatments are necessary to achieve an effective and lasting result.

I have been informed of possible side effects.

If I suspect a complication that differs from the side effects mentioned in the specific patient information, I have been told to inform the Statenkliniek immediately.

I consent to being photographed if necessary. These photographs are only used by the Statenkliniek for the purpose of determining the result of the treatment.

I have read the above. I have had the opportunity to ask questions about the proposed treatment and about the declaration of consent. My questions have been answered to my satisfaction. I understand the meaning and content of the above and agree with it. I want to undergo the treatment of my own free will and for my own responsibility.

I have been informed that

- (i) the treatment is independent of the specialist dermatological treatment, that
- (ii) (ii) appointments can be cancelled up to 24 hours (one working day) before the treatment without incurring a no-show fee according to the published price list (see: <https://statenkliniek.nl/en/costs/>) and that
- (iii) (iii) this consent also applies to all future treatments unless a letter, withdrawing the consent in whole or in part, is submitted to Statenkliniek.

In agreement, Den Haag, on
